

IMAGERY SUBMISSION (EITHER)

1 - A digital image on disk or emailed at actual size, 300 DPI (dots per inch), in TIF, PSD, EPS, AI, DXF or PDF format.

TIF is preferred for bitmap raster images (photos), EPS and PDF are preferred for text and vector images, DXF is preferred for vector based cutting.

2 - A high quality photograph, at least 1/4 the size of the etched image except if you are etching on granite, then the photo can be 1/8 the size of the etched image.

TIPS: If you are unsure of a process, please e-mail us. We can help you through any program.

PHOTO IMAGING PROGRAMS:

- Photoshop, CorelPAINT, PhotoDeluxe, etc.

Image > Adjust Image Size: 300/150 Dpi, (dots/pixels per inch)

File > Save as > .tif, .psd or .eps

VECTOR BASED PROGRAMS:

- Illustrator, CorelDRAW, AutoCAD, etc.

File > Save as > .eps/pdf: choose - convert text to outlines/curves + embed all images

File > Save as or export > .dwg

(Please note that placed images in PDF and EPS documents should follow the same guidelines as photo imagery requirements above.)

TEXT BASED PROGRAMS:

- Word, Wordperfect, Excel, etc.

File > Print to > PDF writer: choose - embed all fonts and images.

File > Export > Adobe PDF: choose - override job options, edit, embed all fonts, no compression

What this DOES NOT mean:

Printed material: faxes, letterheads, magazines, and business cards, JPEG's, GIF's, Word documents or Excel sheets

NOTE: If your original artwork is scratched, out of focus, or of poor quality, the finished product will reflect these imperfections. If you are unsure, please e-mail your questions to raina@laseredgedesigns.com.

SUBMITTING ARTWORK:

Artwork can be either mailed or e-mailed to the following:

Laser Edge Designs
